Chukwuemeka **Olaraonye**

Software Developer · Data Scientist · Graduate Researcher

Gaborone, Botswana

(+267) 71-852-153 | olaraonyemeka@gmail.com

Professional Summary

MSc Computer Science candidate specializing in recommendation systems and deep learning, with a first-class undergraduate record (CGPA 4.42) and a departmental award for best final-year project. Combines hands-on experience in data analytics and dashboard development with full-stack web development skills across Python, React, and modern cloud tooling. Has delivered technical solutions from concept to deployment, including co-founding and building a software venture, and brings proven experience teaching, mentoring, and collaborating in team environments. Seeking to apply strong technical and analytical expertise to deliver high-impact solutions in a professional engineering team.

Skills

Programming	Python, Java, JavaScript, SQL, R, LaTeX
Machine Learning	PyTorch, TensorFlow, scikit-learn
Data & Visualization	Pandas, NumPy, Matplotlib, Seaborn
Analytics & BI	Power BI, Excel, SPSS, Dashboard Development, KPI Reporting
Web Development	React, HTML5, Express, REST APIs
DevOps & Cloud	AWS, Docker, Kubernetes
Languages	English, Setswana, French

Work Experience

Botswana International University of Science & Technology — *Palapye, Botswana*

Teaching Assistant — *Aug. 2024 - Present*

- Lead tutorial, discussion, and lab sessions, guiding students through course material and practical exercises to reinforce understanding.
- Grade assignments, exams, and projects against established rubrics, ensuring consistent and fair evaluation.
- Hold weekly office hours and provide targeted feedback to help students strengthen understanding and improve performance.
- Prepare instructional materials including handouts, quizzes, and presentation slides.

Spectrum Analytics Corp. — *Gaborone, Botswana*

Data Analytics Intern — *May 2023 - Aug. 2023*

- Built data-driven reports and interactive dashboards that supported decision-making, ensuring accuracy, clarity, and alignment with project goals.
- Supported senior analysts with data collection, cleaning, analysis, and documentation across multiple projects, contributing to efficient workflows and high-quality deliverables.
- Researched industry trends, market developments, and emerging technologies to inform strategic planning and analytical recommendations.

Education

Botswana International University of Science & Technology — *Palapye, Botswana*

MSc Computer Science — *Aug. 2024 - Present*

- Research focus: recommendation systems and deep learning for e-commerce.

Botswana International University of Science & Technology — *Palapye, Botswana*

BSc Computer Science and Software Engineering — *Aug. 2020 - May 2024*

- Graduated with CGPA 4.42; awarded 1st Place for Best Final-Year Project in the department.

Honors & Awards

2024	**1st Place**, Best Final-Year Project, Dept. of Computer Science & Information Systems	*Palapye, Botswana*
2023	**Finalist**, Orange Digital Champion's Hackathon	*Gaborone, Botswana*
2021	**Finalist**, BIUST Annual Hackathon	*Palapye, Botswana*

Certifications

Infnova Technologies *Completed*

Data Analytics and Visualization *July 2026*

- Python-based data wrangling, exploratory analysis, and visual storytelling with Pandas, NumPy, and Matplotlib.

MCW Global *Completed*

Online Leadership Course *November 2024*

- Leadership program covering modern leadership, vision planning, self-awareness, inclusion, and workshop design.

Leadership & Community

2025	**Guest Speaker**, CT Graduate Conference, Smart Xcellence	*Botswana*
2025	**Invited Speaker**, "Thriving in the Age of AI," Service Xcellence Mentorship Programme	*Botswana*
2024	**Mentor**, Service Xcellence Mentorship Programme	*Botswana*
2024 - Present	**Member**, Cathedral Youth Fellowship, Holy Cross Cathedral	*Botswana*
2023	**Vice President**, BIUST Innovations Club	*Botswana*
2023	**Events & Workshop Lead**, Google Developer Student Club	*Botswana*
